## Vocation

Rotary Clubs welcome representatives from a variety of vocations—It's great to do business with people you know you can trust. Rotarians operate with the Four-Way Test as a foundation.

## District Functions

- **Assemblies and Seminars** are training events for Rotarians to learn about Rotary initiatives, membership development, Foundation giving, and public image. They are offered locally and are both informative and great fellowship opportunities.
- **District Conference** is held annually somewhere inside the district boundaries or at a nearby tourist destination like Lake Tahoe. Families are invited and welcome. There are inspirational speakers, social and service activities, and training. This one is not just about learning but building friendships.
